Turn Any Video into a **Claude Skill**

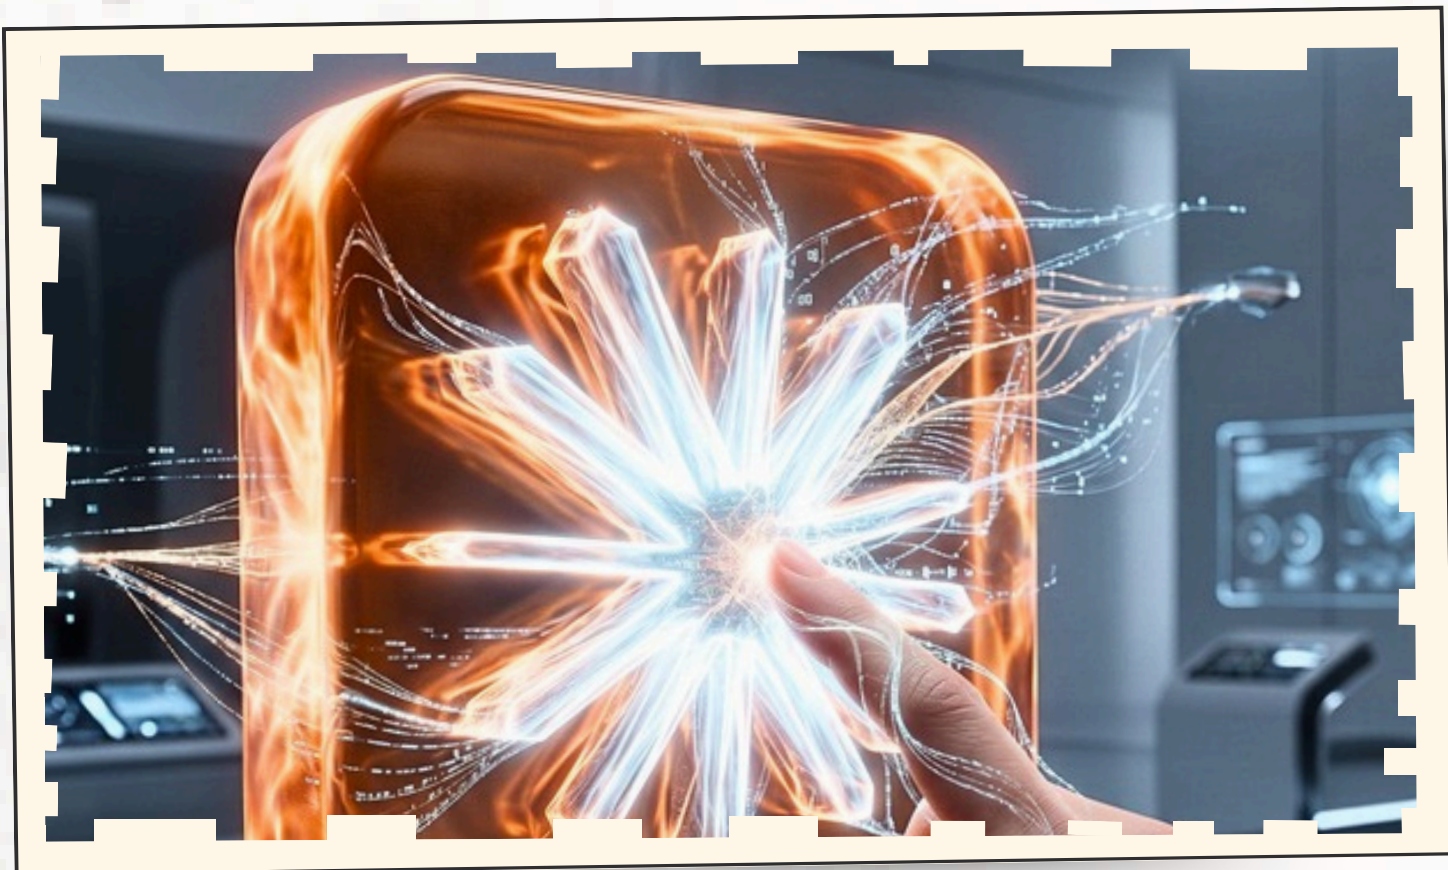

Build this once, Claude does the rest

Use videos to build Claude skills

- Maximize results, using just video links + Claude

YouTube Link → Transcript → Claude
/command → SKILL.md

Choose the Right Video

- **USE THESE:**
Videos that teach a clear method, system, framework, checklist, tutorial, or repeatable process
- **SKIP THESE:**
Vlogs, opinion pieces, reaction videos, entertainment clips, or anything without clear steps
- **QUICK TEST:**
Can you summarize the video's method in numbered steps? If yes, turn it into a skill

Can you summarize the video's method in numbered steps? If yes, turn it into a skill

Pull Out the Transcript

● Ask these 5 questions as you watch:

1. What problem does this video solve?
2. What are the steps shown in order?
3. What rules does the creator keep repeating?
4. What mistakes does the creator warn people about?
5. What exactly should Claude produce after using this method?

- What problem does this video solve?
- What are the steps shown in order?
- What rules does the creator keep repeating?
- What mistakes does the creator warn people about?
- What exactly should Claude produce after using this method?

Build the SKILL.md File

- Open Claude and start creating

Prompt

Use the skill-creator to build a skill from this video transcript.

Video title: [paste title]

Creator: [paste creator name]

YouTube link: [paste link]

The skill should activate when I ask Claude to use this video's method to complete a task.

The skill should extract:

- The main problem the video solves*
- The step-by-step method*
- The rules the creator repeats*
- The mistakes to avoid*
- The output format Claude should follow*
-

Transcript:

[paste transcript]

Do NOT use this skill for:

- General advice*
- Random summaries*
- Tasks unrelated to the video's method*

*Interview me on anything missing before generating the SKILL.md.
Then run an evaluation.*

Make Two Skills Instead of One

- Long videos often contain two separate things.
- **Split them into two skills:**

1. [video-name]-diagnose – Figures out what's wrong using the video's framework

2. [video-name]-apply – Fixes or rewrites using the video's exact method

- Real example from a YouTube video about writing better hooks:

1. [video-name]-diagnose – Figures out what's wrong using the video's framework

2. [video-name]-apply – Fixes or rewrites using the video's exact method

Test Before You Add It

● Check three things:

1. Try 5 different ways of asking for the same thing. Does the skill trigger every time?
2. Try 3 unrelated requests. Does the skill stay quiet when it shouldn't be used?
3. Ask Claude directly: "When would you use this skill?"

- Try 5 different ways of asking for the same thing. Does the skill trigger every time?
- Try 3 unrelated requests. Does the skill stay quiet when it shouldn't be used?
- Ask Claude directly: "When would you use this skill?"
